EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vincent Egolf on Friday, March 25, 2005.

The application has been amended as follows:

--Claim 23. (Currently amended): A method of opening a hopper closure assembly, comprising:

providing a hopper containing granular material and a discharge opening below the granular material whereby the granular material by gravity has a weight force directed toward the discharge opening;

providing a longitudinal sliding gate which parallels a plane defined by the discharge opening;

providing a downward angled leading edge upon the sliding gate, the leading edge exposed to the granular material when the gate is in a closed position wherein the gate covers the discharge opening;

providing a raising structure upon the gate frame to elevate the leading edge of the gate, permitting the leading edge to move from the receiving edge by descent from the raising structure;

Art Unit: 3612

moving the gate from the closed position to an open position wherein the gate opens the discharge opening to permit the granular material to move through the discharge opening; interacting the granular material with the gate to assist in movement; guiding the leading edge of the gate in a direction away from the discharge opening during movement of the gate from the closed to the open position.--

Claim 24 has been canceled.
